Project Title: None yet

**Time logs 1/31/2024 to 2/7/2024 (week 2)**

12 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
1/31/24	1 hour	Other	Was officially enrolled into the course. Thinking of project ideas and what's the best route to go.	
2/1/24	1.5 hour	Other	Looked on Blackboard to form/join a group	Look for project/group to join
2/2/24	1 hours	Other	Reviewed the syllabus and added due dates listed to my calendar app	
2/3/24	4 hours	Documentation	Took a look at all of the templates and no./,subg0mission criteria. Also, reached out to the lists of people to contact for a project. Drafted up emails and sent it out.	
2/5/24	2 hours	Research	Read up on independent project ideas in case I didn't hear back from other groups.	Not having a group to work with
2/7/24	1.5 hour	Coding	Created the source code repository for the project. Also, reached out that I don't have a group as of now.	Trying to connect GIT to Jupyter notebook.
2/8/24	1 hours	Research	Left to work on my own, I researched how to implement a machine learning project.	

**Reflection**

*What were your main goals in this time period?*

I was looking for a project to work on and also gathering my resources and tools together. To find

a project I had to figure out who to contact, and then how to make time to speak with them.

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Finding a group to join and if not and what project I would be passionate about doing on my own.

Project Title:

**Time logs 2/8/2024 to 2/16/2024 (week 3)**

12 hours accumulated in this period

<b>Date</b>	<b>Duration</b>	<b>Type</b>	<b>Description of completed work</b>	<b>Challenges and/or Next steps</b>
2/8/24	1 hour	Other	Checked blackboard to see if I got any responses and sent out more emails.	
2/11/24	1.5 hour	Other	Decided to do some more research on a project idea on my own while waiting for responses	Figuring out a plan B
2/12/24	1 hours	Research	Wanted to work within machine learning and wrote out a few ideas I had in mind	Narrowing down what I can do on my own
2/13/24	4 hours	Documentation	Did research on AI, and open data on google colab to be tested on Jupyter notebook, so I can get used to the idea of working with machine learning.	
2/14/24	1.5 hours	Other	Reached out to an old mentor of mine asking to help guide me within the scope of data science and help guide me on what the best route to take with my project idea.	
2/15/24	2 hours	Coding	Familiarized myself with python and machine learning using Jupyter notebook.	Working with Jupyter notebook after a while.

2/16/24	1 hours	Other	Waiting to hear back from my mentor. In the meantime, figuring out a schedule on how to approach a machine learning project on my own.	
---------	---------	-------	---	--

### Reflection

*What were your main goals in this time period?*

Continuing to find a group. Also, if not, what would be the best project for me to work on by myself.

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Delving into machine learning as a beginner and navigating the ins and outs of it. What helped me was the idea of reaching out to my mentor who is knowledgeable within this field and listening to the insight she will provide me with.

Project Title: Schedule Schedule Calculator

**Time logs 2/18/2024 to 2/23/2024 (week 4)**

11 hours accumulated in this period

Date	Duration	Type	Description of completed work Challenges and/or Next steps
2/18/24	1 hour	Other	Waited to be reached out after filling out the contact form that I do not have a project. Also, checked blackboard and gmail to see if anyone reached out
2/19/24	1.5 hour	Research	Continued to do more research on a project idea on my own while waiting for responses Trying to focusing on plan B
2/20/24	1 hours	other	Heard back from my mentor that she would love to help assist me in any way over email. Emailed her of a few ideas I have in mind.
2/21/24	1 hour	other	Heard back from Professor Chuang to meet at an allotted time to form a project group. Set up my calendar to meet then and emailed my mentor of the change in direction of my project.
2/22/24	30 min	Other	Emailed my mentor telling her the change in my project plan and that if her guidance is needed, I will let her know.

2/23/24	2 hours	Research	Continued learning about independent school projects
---------	---------	----------	--

2/24/24	4 hours	Other	<div>While waiting to meet with the professor, just continued to do some research on independent project and continued learning python in case its needed.</div> <div>Eager to meet and get things started</div>
---------	---------	-------	--

### Reflection

*What were your main goals in this time period?*

Continuing to learn coding in case a machine learning project might sound interesting to the new group I will be a part of.

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Feeling like I am in limbo since I was waiting to hear back about a group for the the class and forgoing working on my own project. What helped was knowing that once I do meet with the professor, we can start on our project right away and I will have something to work as a group.

First Last (Section): Hadassa Franklin  
 Email: Hadassa.Franklin35@bcmail.cuny.edu  
 Project Title: Study Schdeule Calculator

**Time logs 2/25/2024 to 3/3/2024 (week 5)**

16 hours accumulated in this period

Date	Duration	Type	Description of completed work Challenges and/or Next steps
2/25/24	2 hours	Other	Continued learning until my meeting with the professor
2/26/24	4.5 hours	Other	Met with Professor Chuang.  Working on a new project with a team
2/27/24	2 hours	Research	Formed a group and discussed the project idea she has for us and how each of us can contribute. As a new group, we spent time in the library going over our plan for the project and how implementation will look.  Trying to focus on our idea and making sure I understand what needs to go into it.  Narrowing down what I can contribute and what are my skills

2/28/24	2 hours	meeting	Our idea was pitched with the help of the professor: Study schedule calculator and that our goal for the week was to work on a simple prototype. Scheduled to meet for next week.	Communication with group members and figuring out our calendars.
2/29/24	1 hours		Planned to have a virtual meeting to go over everything.	

3/1/24	2.5 hours	Coding	Familiarized myself html, css code, and learned some javascript.
3/3/24	2 hours	Other	Discussed what our goals are for today, if we should meet to go over our what we should begin working on and delegating tasks. Waiting to begin on anything concrete until the professor shows us on Monday what is needed of us.

### Reflection

*What were your main goals in this time period?*

Going over the project idea and figuring out everyones strengths and weaknesses so we can delegate tasks properly to each team member.

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Communication and timing everyones schedule properly since we were a new group in middle of the semester. Once we scheduled meeting with the professor and spending time in the library, our goals became more concrete making it easier to communicate and present our individual goals.

Project Title: Study Schdeule Calculator

**Time logs 3/4/2024 to 3/11/2024 (week 6)**

17 hours accumulated in this period

Date	Duration	Type	Description of completed work Challenges and/or Next steps
3/4/24	4 hour	Meeting	Met with the professor, and was showed a basic idea of what to work with. Began organizing what needs to be submitted to blackboard. Worked on our project proposal via call.
3/5/24	3 hours	Other	Submitted time logs. Met again virtually as a group to complete our project proposal.
3/6/24	2 hours	Research	Again, focused on our idea and making sure I understand what needs to go into it.
3/7/24	2 hours	coding	Working on best code editor for website building  Worked on the website - began creating the form and styling a bit.  Trying to find bootstrap designs that might fit.
3/8/24	2 hours	coding	Picked up on the website again, restarted fresh since i was encountering a few bugs.  Debugging

3/10/24	2.5 hours	Coding	Continued working on the website - started focusing on the html forms and css. Figuring out the javascript as well.	Debugging - javascript code was clashing with other functions
---------	-----------	--------	---	---

3/11/24	2 hours	Other	Scheduled a date to meet with professor to present our live presentation.	
---------	---------	-------	---	--

### Reflection

*What were your main goals in this time period?*

Completing a backbone of the website with certain things mentioned in the meeting with the professor

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Probably working on the website - and I got through the challenge with the help of research.

 Project Title: Study Schedule Calculator

**Time logs 3/12/2024 to 3/19/2024 (week 7)**

14.5 hours accumulated in this period

Date	Duration	Type	Description of completed work Challenges and/or Next steps
3/12/24	2 hour	coding	Worked on website: trial and error. Trying to get the html to work with the javascript functions.
3/13/24	2 hours	coding	Worked on website - began on getting the calculations based on the credit question.
3/14/24	1.5 hours	coding	Worked on website: fixing any javascript bugs and adding an image to the background
3/15/24	1 hour	coding	Polishing the website.
3/17/24	3 hours	Group meeting	Completed website and got everything working. Met as a group online to go over our presentation and website.
3/18/24	3 hours	Met with professor and group meeting	Met as a group again to go over the design diagrams. Met with professor to present our live presentation.

3/19/24	2 hours	code	<p>Began working on new edit for the code. 1: making a total calculations - adding a final submit button.</p> <p>2. Adding a radio toggle switch for the yes or no questions.</p>
---------	---------	------	---

### Reflection

*What were your main goals in this time period?*

Continuing to learn coding and completing what needs to get done

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Debugging really stressed me out - but again, research and analyzing what is causing the issue helped.

Project Title: Study Schedule Calculator

**Time logs 3/20/2024 to 3/28/2024 (week 8)**

14.5 hours accumulated in this period

Date	Duration	Type	Description of completed work Challenges and/or Next steps
3/20/24	2 hour	coding	Continued working on webiste
3/21/24	1 hours	coding	Continuted working on website - debugging
3/22/24	1.5 hours	research	Learned more about javascript
3/24/24	0 hour		Holiday - purim.
3/25/24	3 hours	Group meeting	Completed website and got everything working.
3/27/24	3 hours	reserarc h	Worked on website

3/28/24	2 hours	Meeting	Met with professor, and then had a team meeting to go over our goals for the upcoming week.
---------	---------	---------	---

### Reflection

*What were your main goals in this time period?*

Continuing to learn coding and completing what needs to get done

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Debugging really stressed me out - but again, research and analyzing what is causing the issue helped.

Project Title: Study Schedule Calculator

**Time logs 3/29/2024 to 4/5/2024 (week 9)**

12 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
3/29/24	1 hour	Other	Prepped schedule to change website code	
3/31/24	2 hour	Code	Began coding website - removing toggle and making it more UI friendly.	
4/1/24	1 hours	Design	Going through different styles of the website	
4/2/24	4 hours	code	Coding website and fixing bugs	
4/3/24	2 hours	Design	Design and coding	
4/4/24	1 hour	Coding	Finsihgn up look for website to present at the meeting next week	
4/5/24	1 hours	code	Finihsed up the UI and focused on committing everything to github.	

**Reflection**

*What were your main goals in this time period?*

Working on designing a form that looks organized

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help? Debugging.*

Project Title: Study Schedule Calculator

**Time logs 4/7/2024 to 4/14/2024 (week 10)**

9.5 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
4/7/24	1 hour	Code	Coding website - calculations	Bugs! Lots of them
4/8/24	1.5 hrs	Meeting	Group meeting to check progress and correct bugs found in code	
4/9/24	2 hours	Research	Looked up github actions by watching videos and reading articles.	
4/10/24	1.5 hours	Research	Learned a bit more regarding actions and deployment	
4/12/24	1.5 hour	Coding	Website coding and reading on github actions	
4/14/24	2 hours	Research	Preparing for meeting: making sure website looked good and that I wrote questions on github CI/CD	

**Reflection**

*What were your main goals in this time period?*

*Prepping the website and reading articles on github actions*

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Learnin something new

First Last (Section): Hadassa Franklin, VC1A

Email: Hadassa.Franklin35@bcmail.cuny.edu

Project Title: Study Schedule Calculator

**Time logs 4/15/2024 to 4/21/2024 (week 11)**

9.5 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
4/15/24	2 hour	Meeting	Meeting with professor: Going over what she wants to see from us. Also, what direction we want to go as we complete the project. Group meeting to write out our goals for the coming week.	
4/16/24	1 hour	Other	Created a schedule	
4/17/24	2 hours	Research	Learned more about gitgub actions	
4/18/24	2 hours	Other	Worked on github	
4/19/24	2 hours	Research	Github actions	
4/21/24	0.5 hour	Coding	Pushed actions to github	

**Reflection**

*What were your main goals in this time period?*

*Focusing on github actions and merging my forked github to main*

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

*Learning something new. Yes, through various online tools which kept me motivated.*

Project Title: Study Schedule Calculator

**Time logs 5/1/2024 to 5/8/2024 (week 14)**

11 hours accumulated in this period

<b>Date</b>	<b>Duration</b>	<b>Type</b>	<b>Description of completed work</b>	<b>Challenges and/or Next steps</b>
5/1/24				
5/2/24	1.5 hour	Other	Learning github actions. The importance of them.	Learning something new
5/3/24	3 hours	Meeting	Had a team meeting to go over what we accomplished before spring break and after. Finalized survey to send out. Pushed github forked branch to main branch.	
5/5/24	1 hour	Research	Continuing to learn about github actions	Learning something new
5/6/24	2 hour	Research	Took a look at all of the worksheet templates on github and started working on one	
5/7/24	1.5 hour	Coding	Committed the github worksheet / action to implement a CI/CD	Studying github actions - and working on implementing that
5/8/24	2 hours	meeting	Had a final meeting with professor to go over our project and present github actions. Team meeting afterwards to go over the feedback of the project and what else needs to be completed.	Creating a schedule to complete our goals

## Reflection

*What were your main goals in this time period?*

Focusing on github actions and implementing that to github.

Pushing my forked branch to the main branch so that my partner can see the progress from main.

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Learning something new and doing research on the importance of what I am meant to do. I was able to meet the challenge by using educational resources on the web

First Last (Section): Hadassa Franklin, VC1A

Email: Hadassa.Franklin35@bcmail.cuny.edu

Project Title: Study Schedule Calculator

**Time logs 5/9/2024 to 5/14/2024 (week 15 & 16)**

17 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
5/9/24	1 hour	Other	Reviewed what needs to be done and creating a scheudle to complete those tasks	
5/10/24	3 hours	Research	Challenged myself to continue learning more about github actions and coding	
5/12/24	3 hours	other	Worked on time logs and coding	
5/13/24	4 hours	coding	Worked on fixing a few things on the website based on feedback.	
5/14/24	2 hours	Documentation, coding	Coding a bit of the website - working on result page and attempting deployment of github actions Worked on completing time logs for final submission.	
5/15/24	4 hours	Meeting	Group meeting to go over slides, code, and record our final project.	

**Reflection**

*What were your main goals in this time period?*

*Finishing up the website and github actions. As well as time logs for submission*

*What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? If not, what could help?*

Trying to get everything done
