Project Title:

Time logs 1/31/2024 to 2/7/2024

12 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
2/31/24	1 hour	Other	Was officially enrolled into the course. Thinking of project ideas and what's the best route to go.	
2/1/24	1.5 hour	Other	Looked on Blackboard to form/join a group	Look for project/group to join
2/2/24	1 hours	Other	Reviewed the syllabus and added due dates listed to my calendar app	
2/3/24	4 hours	Documen tation	Took a look at all of the templates and no./,subg0mission criteria. Also, reached out to the lists of people to contact for a project. Drafted up emails and sent it out.	
2/5/24	2 hours	Research	Read up on independent project ideas in case I didn't hear back from other groups.	Not having a group to work with
2/7/23	1.5 hour	Coding	Created the source code repository for the project. Also, reached out that I don't have a group as of now.	Trying to connect GIT to Jupyter notebook.
2/8/24	1 hours	Research	Left to work on my own, I researched how to implement a machine learning project.	

Reflection

What were your main goals in this time period?

I was looking for a project to work on and also gathering my resources and tools together. To find a project I had to figure out who to contact, and then how to make time to speak with them.

What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? It not, what could help?

Finding a group to join and if not and what project I would be passionate about doing on my own.
