Project Title: Schedule Schedule Calculator

Time logs 2/18/2024 to 2/23/2024
11 hours accumulated in this period

Date	Duration	Type	Description of completed work	Challenges and/or Next steps
2/18/24	1 hour	Other	Waited to be reached out after filling out the contact form that I do not have a project. Also, checked blackboard and gmail to see if anyone reached out	
2/19/24	1.5 hour	Reseach	Continued to do more research on a project idea on my own while waiting for responses	Trying to focsuing on plan B
2/20/24	1 hours	other	Heard back from my mentor that she would love to help assist me in any way over email. Emailed her of a few ideas I have in mind.	
2/21/24	1 hour	other	Heard back from Professor Chuang to meet at an allotted time to form a project group. Set up my calendar to meet then and emailed my mentor of the change in direction of my project.	
2/22/24	30 min	Other	Emailed my mentor telling her the change in my project plan and that if her guidance is needed, I will let her know.	
2/23/23	2 hours	Reseach	Continued learning about independent school projects	

2/24/24	4 hours	Other	While waiting to meet with the professor, just continued to do some research on independent project and continued learning python in case its needed.	Eager to meet and get things started

Reflection

What were your main goals in this time period?
Continuing to learn coding in case a machine learning project might sound interesting to the new group I will be a part of.

What were the main challenges during this phase? Were you able to meet the challenge, if so, what helped? It not, what could help?

Feeling like I am in limbo since I was waiting to hear back about a group for the the class and forgoing working on my own project. What helped was knowing that once I do meet with the professor, we can start on our project right away and I will have soemthhing to work as a group.
